

Alpine Conspiracy came together out of the thriving arts & music scene in the mountain party town of Nelson, British Columbia, early 2013.

Their goal was to weave a collective love of Funk, Disco, Prog & JamRock into cohesive, exciting & completely original music. After months of jamming & brainstorming, the formula for co-writing catchy, unique, danceable songs emerged - the writing process became easier & ridiculously fun.

AC have really come into their own during the past two years, having played many festivals, clubs to various venues, & winning the 2017 Kootenay Music Award (KMA) for Best Rock Band;. AC look forward to sharing their love & passion for live music around the globe.
